

Left And Right File (yes that's my face, I'm 21, not some little bitchy kid)

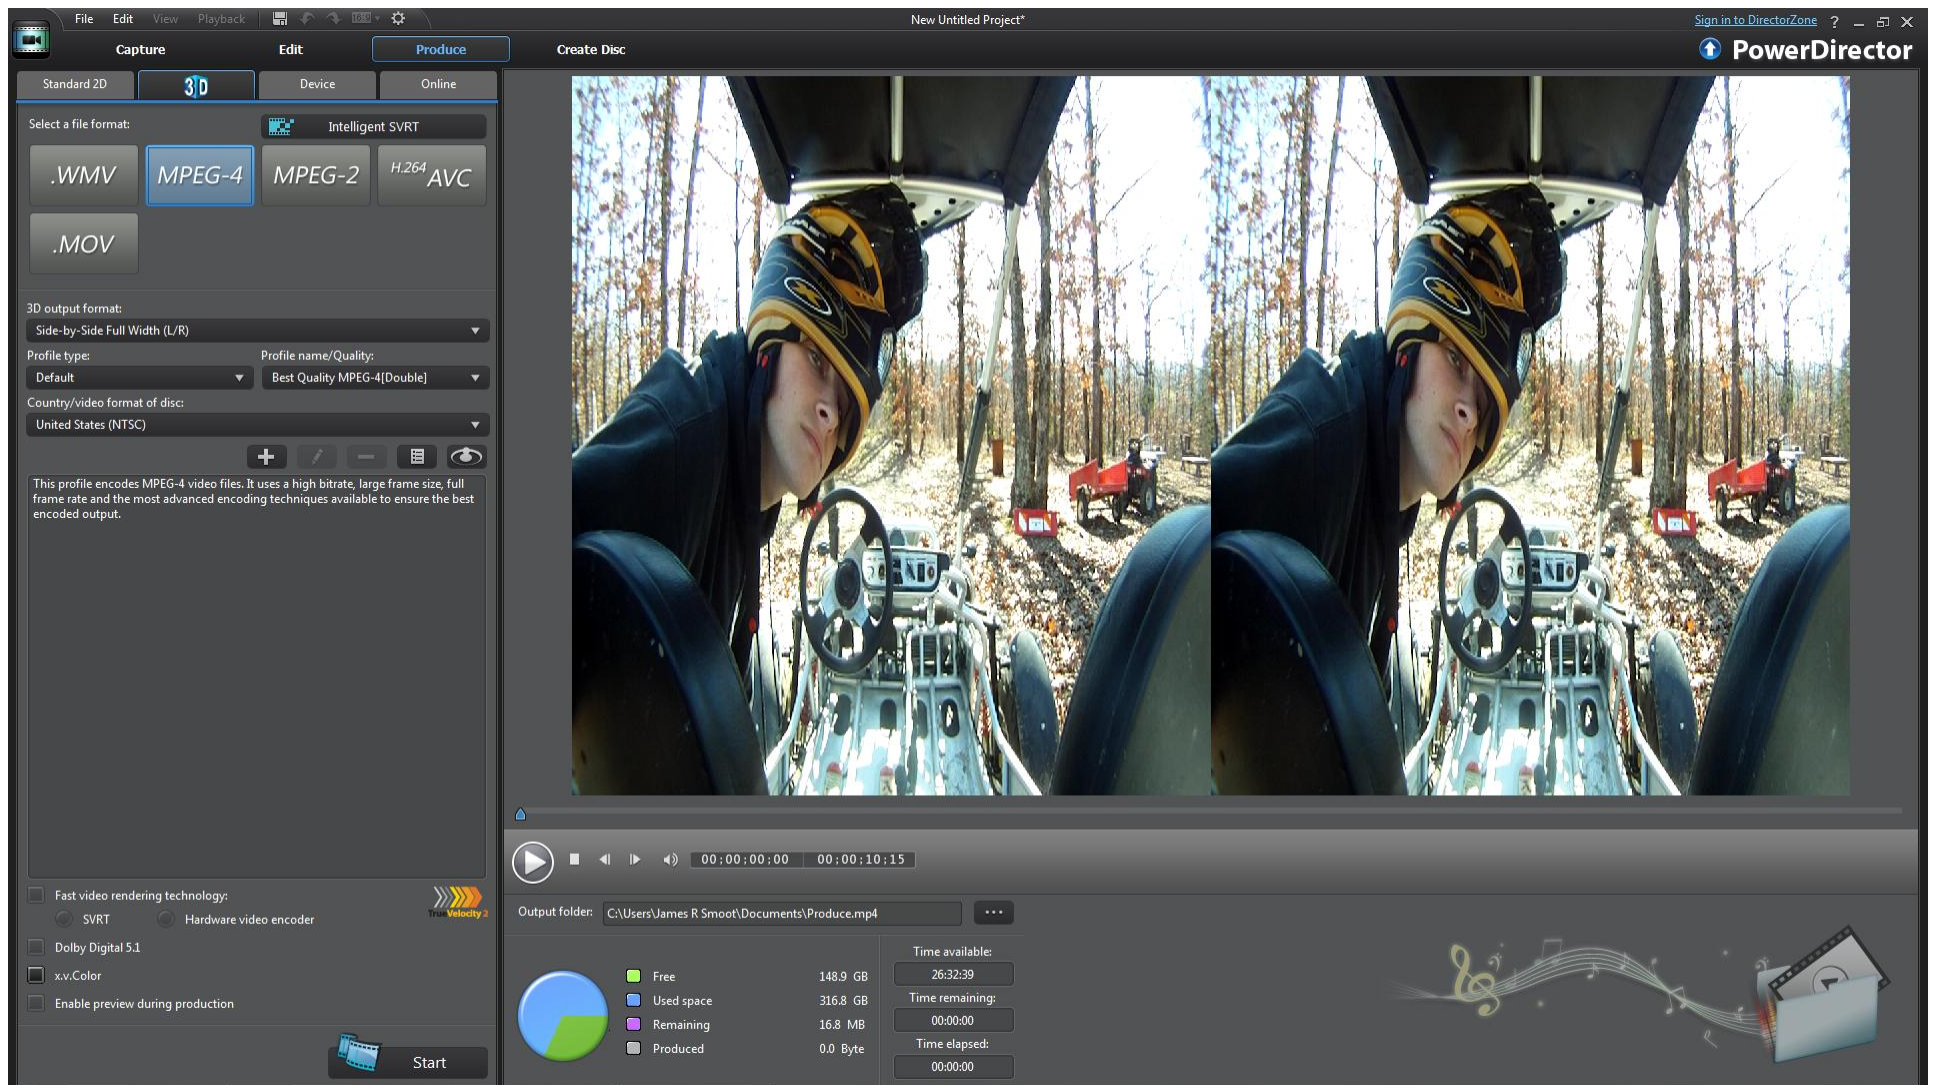

Add To Track, Make Half-Width

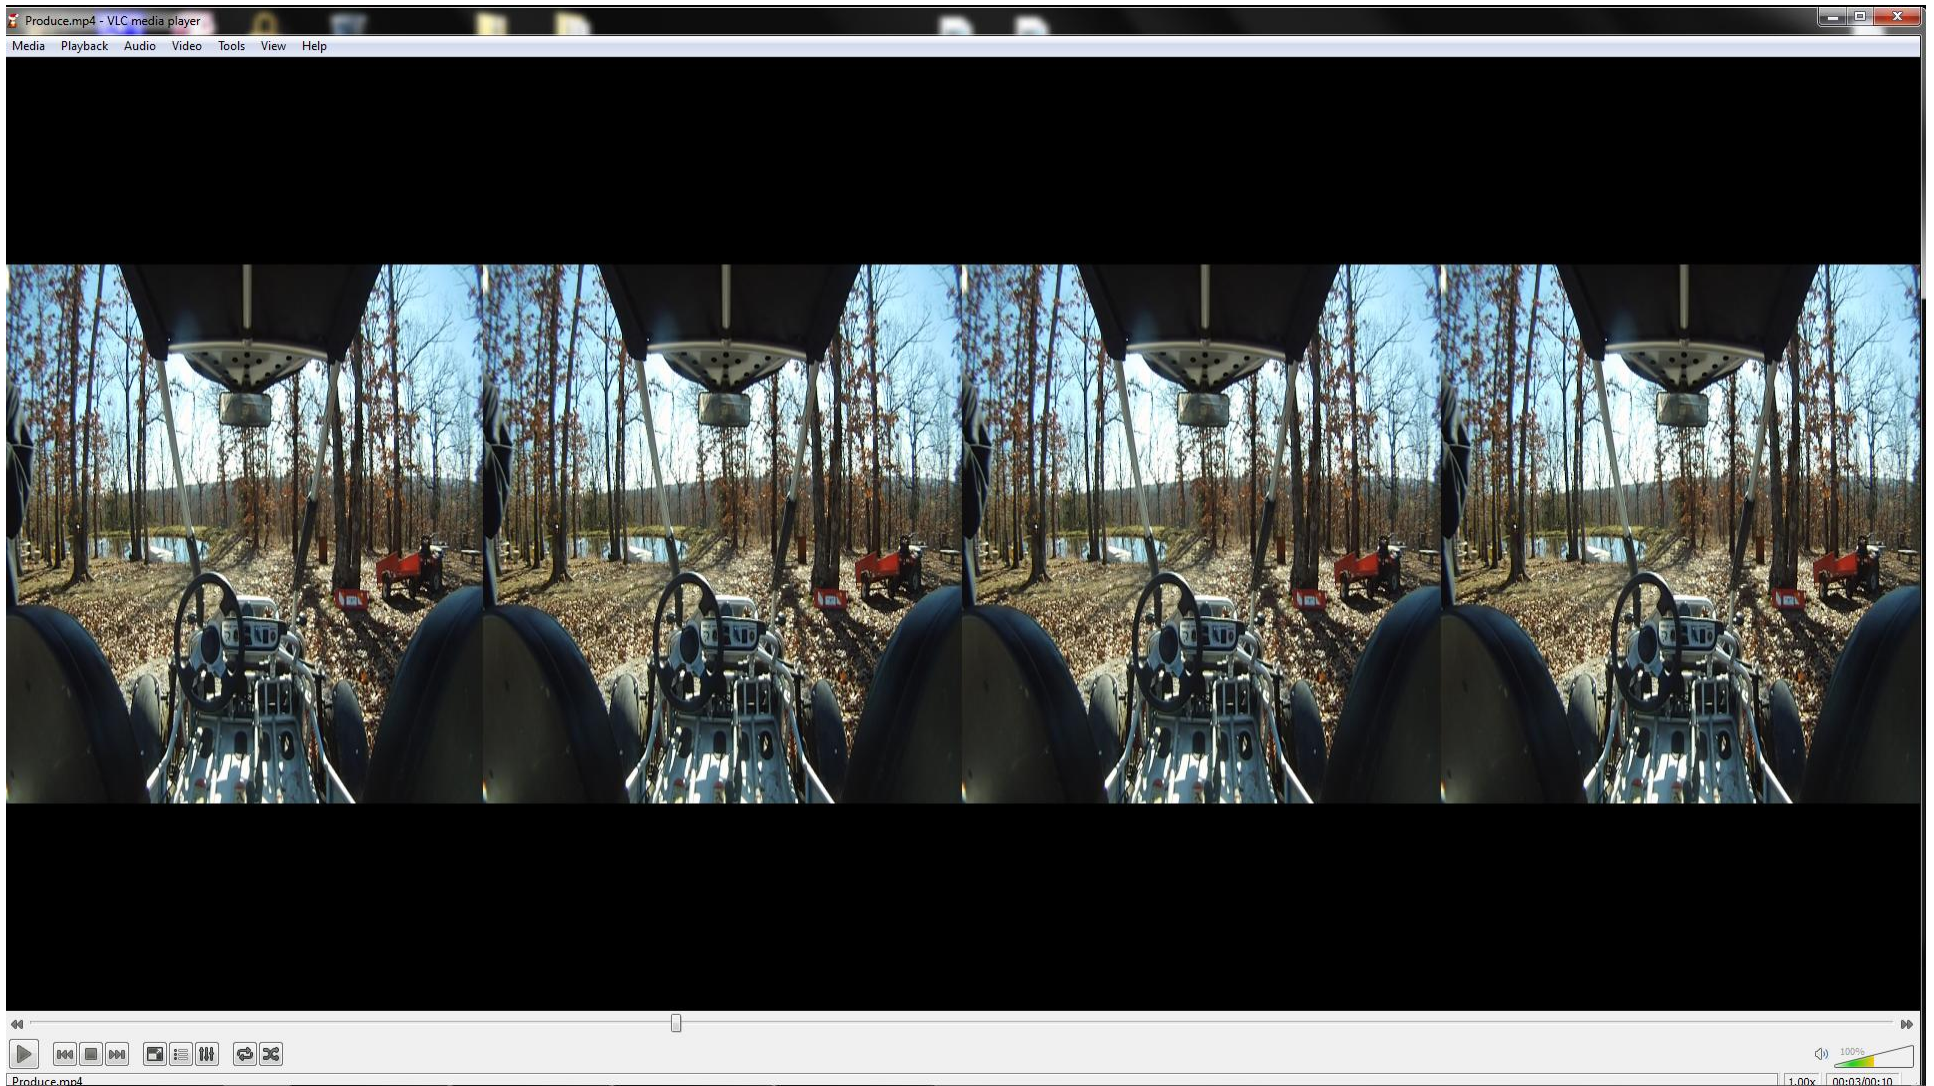

Then I Can Render, And Get A 50% Quality 3D File To Work With

If I Do It With The 3D Render Tab, I'll Get... (next image)

This is a 3D video of the side-by-side video.

Thanks again for your help, but, I found Cyberlink's corporate number, and well, they are gonna get a call soon. Plus, they advertised 3D titles, yet after installing all three content packs, I have ZERO 3D titles, and no option to create one. 3D-like doesn't count, lol, tried it & set depth, doesn't work.
